

A Day in the Life at SOLA

SOLA

Welcome to SOLA, Canada's most tech innovative new luxury condo tower!

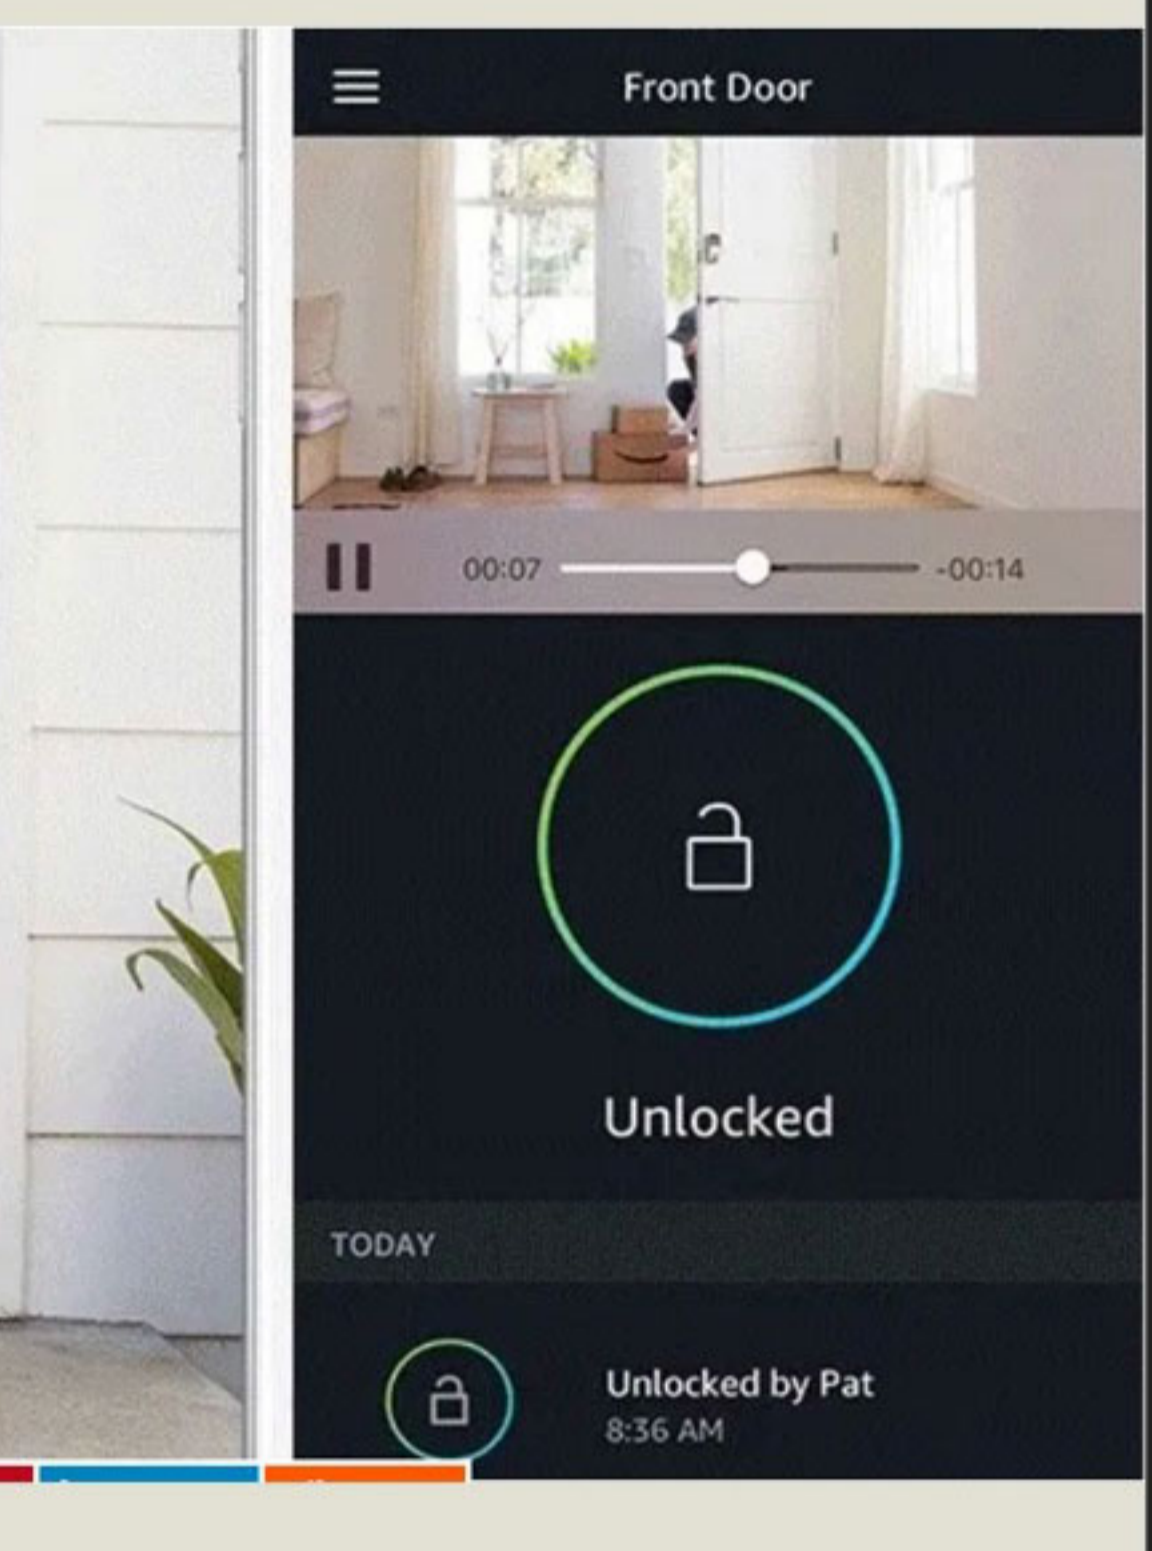

Here's what A Day in the Life at SOLA can be for all new residents. Imagine living in state of the art smart homes with full SOLA technology smart hubs integrated in every unit, with immaculate luxury spa like amenities at your doorstep. Welcome to your new Residence at SOLA!

Imagine waking up at SOLA to the sounds of nature with your personalized Amazon Alexa settings. You ask Alexa to turn on all the lights & play your favourite music playlist. As you get ready, Alexa plays the morning news, while it turns on the kitchen lights & coffee machine for your morning brew. You decide to have quick morning workout at SOLA's penthouse level rooftop fitness centre, while enjoying the amazing city skyline views through floor to ceiling glass panels. Your partner prefers a calm yoga stretch session first, prior to jumping on a Peloton bike workout!

After a great workout, you pull out your mountain bike from the private new bike rack locker, included with every SOLA condo, for your usual Friday morning ride, but the back tire on your bike seems to need minor repair. No problem, you head down to the bike repair bay in parkade level P2 for quick simple fix! Meanwhile your partner is watching a new cooking demo on Alexa up in your condo, & preparing a fancy new egg frittata dish for breakfast!

Time to head to work for the day, so while at the office you program a few movie/program downloads at home, which literally take only seconds now, with your gigabit ethernet internet speeds available at SOLA, the fastest for any condo building in western Canada. Expecting a delivery that you did not want to miss? SOLA has you covered... you get notified on your phone that someone's at your front door. With your high resolution wireless webcam, fully Alexa enabled, you can greet the delivery person Trish with 2 way audio speakers & if you wish unlock your front door remotely, watch your package be placed inside your new residence at SOLA & as Trish leaves, just lock your front door again, all remotely with full security and utmost peace of mind. You're always safe knowing that contactless delivery/pickup is so simple at SOLA.

Never miss a delivery when you're not home or ever have package misplaced ever again. You'll always get notified on all deliveries whether you're out in Calgary or at the beach anywhere around the globe, SOLA tech & Amazon's full integration always works. It's all included with every single residence at SOLA. Upgrade to the Luxury Alexa package at SOLA & you'll get even more amazing exclusive features!

Work time is over & time to head home to SOLA. You'd love to take your beloved dog out for a quick walk along the fabulous Bow river pathway, right next door. Your poodle, Bebe, jumps into some puddles of course rolling around in the dirt outside, so Bebe gets a little dirty today. No problem, let's head into your new residence at SOLA & as Trish leaves, just lock your front door again, all remotely with full security and utmost peace of mind. You're always safe knowing that contactless delivery/pickup is so simple at SOLA... Bebe loves this!

Some friends video call you on Alexa and would love to meet up for quick drink to plan this weekend's trip to the mountains. You invite them up to SOLA's penthouse terrace lounge with heat lamps galore & hang out together, while enjoying the spectacular views in all directions over the sunset.

Getting ready for bed? Again, SOLA has you covered. Ask Alexa to turn on your bedside lamp and play a relaxing audiobook for you as you revitalize yourself for the next day. Imagine this lifestyle at SOLA... you don't need to imagine anymore, its here & all available now at SOLA, Canada's most tech innovative new luxury tower.

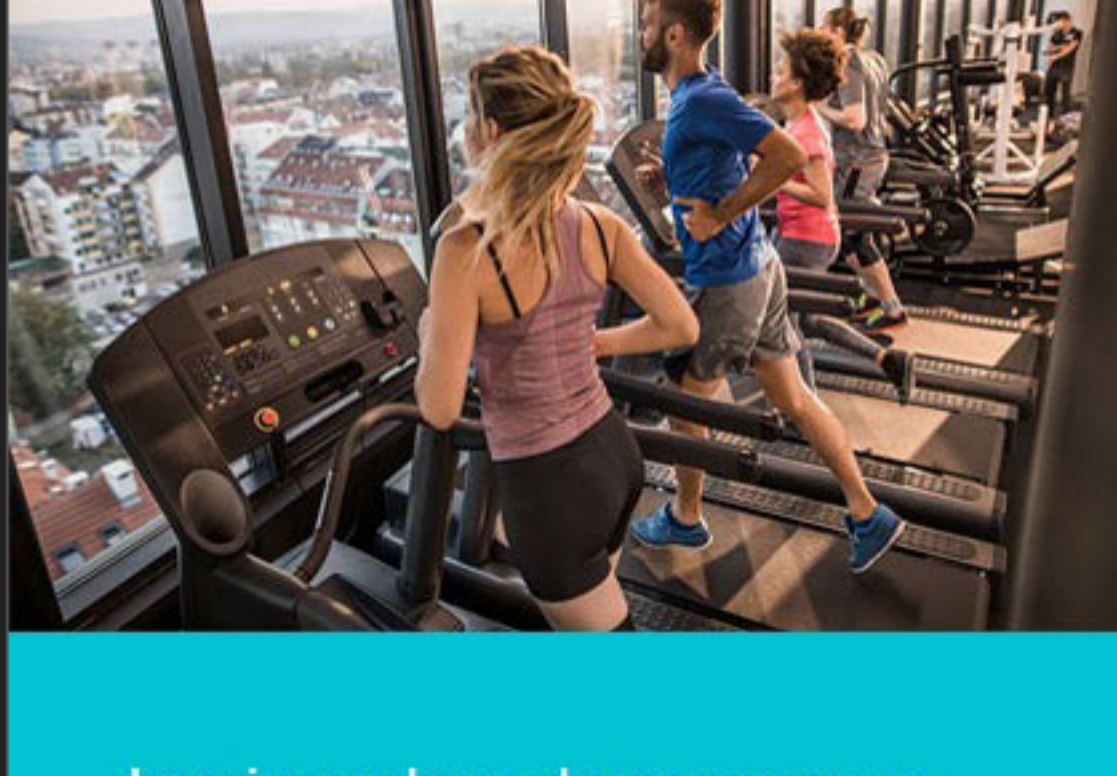

With Ocgrow Group's strategic alliance in Canada with Amazon, all residences are fully Alexa enabled, with SOLA tech smart hub in all units, the fastest internet speeds in western Canada, luxury first class amenities for all condo owners, a state of art fitness room, the penthouse luxury terrace lounge, a pet spa & so much more.... just another day in the life of SOLA!
